

## Advanced WordPress Plugin Developer - August 2010 ongoing

We're looking for someone experienced in **complex but beautiful WordPress plugin development**, to become a key member of the WPMU DEV team.

For this position we're keen to work with someone who has **demonstrable experience** with WordPress plugin development, can deal with serious levels of **difficulty**, has exceptionally **quick** turnaround times, doesn't mind getting stuck into **UI design**, has a great degree of **autonomy** and who's up for a **challenge!**

The role will basically involve:

- Conceiving, designing and developing custom, technically challenging, WordPress plugins as part of the WPMU DEV team
- Providing ongoing support for and customization of these plugins
- Alongside this, and as agreed, working on other cool Incsub projects including Edublogs, WP.MU, WP Plugins and super secret exciting new stuff too!

We're looking for someone to start right away with pretty much a full time load (although we don't expect the successful applicant to give up their own current projects, pretty much every member of the team has their own projects too!).

We'll start with a trial project to see how we get on with each other, and take it from there.

**Location is unimportant, hours are flexible and remuneration is very competitive.**

### Who are we?

Incsub is the organization behind WPMU DEV, Edublogs, WP.MU, WP Plugins, BuddyPress and WPMU.org. You can see us all here: <http://edublogs.org/about/>.

### What's next?

Please contact us directly [admin@incsub.com](mailto:admin@incsub.com) - subject: Advanced Plugin Developer Role

Please let us know about:

- Your experience in WordPress plugin development – please provide concrete examples and, where possible, code samples or links to released code
- Your current availability and, of course, any questions that you might have!

**We're looking to take on someone as soon as possible**, so the quicker you can get in touch with us, the higher the chance that we'll be able to work something out.
