

Advanced WordPress Plugin Developer

We're looking for someone experienced in **complex but beautiful WordPress plugin development**, to become a key member of the Incsub team.

For this position we're keen to work with someone who has **demonstrable experience** with WordPress plugin development, can deal with serious levels of **difficulty**, has exceptionally **quick** turnaround times, doesn't mind getting stuck into **UI design**, has a great degree of **autonomy** and who's up for a **challenge!**

The role will basically involve:

- Conceiving, designing and developing custom, technically challenging, WordPress plugins as part of the Incsub team
- Providing ongoing support for and customization of these plugins
- Alongside this, and as agreed, working on other cool Incsub projects which include:
 - WPMU DEV Premium, WP.MU & Incsub development
 - Edublogs & Blogs.mu

And we're looking for someone to start right away with a full time load (although we don't expect the successful applicant to give up their own current projects - and we are pretty flexible too).

Location is unimportant and hours are flexible.

Who are we?

Incsub is the organization behind WPMU DEV, WPMU DEV Premium, Edublogs, Edublogs Campus, Blogs.mu, WP.MU and WPMU.org. We're also the WPMU / BuddyPress developer of choice via Incsub.com... and a heap of fun to work with too :)

What's next?

Please contact us at admin@incsub.com

Please let us know about:

- Your experience in WordPress plugin development – please provide concrete examples and, where possible, code samples or links to released code
- About yourself and what makes you think you'll be a good fit for this role
- Your availability and standard daily / weekly rates

We're looking to take on someone as soon as possible, so the quicker you can get in touch with us, the higher the chance that we'll be able to work something out!
